eLaterna Launch & Workshop

Dear Ladies and Gentlemen,

eLaterna – Historical Art of Projection will become a (virtual) reality on **4 June 2018** !

We cordially invite you to the launch of the new research platform *eLaterna* created by the Trier Center of Digital Humanities and the Department of Media Studies at the University of Trier.

The welcoming speech will be given by **Prof. Dr. Michael Jäckel**, President of the University of Trier.

The opening address “*Digital Media History and Hands-on Approach*” will be given by **Prof. Dr. Andreas Fickers**, Director of Luxembourg Centre for Contemporary and Digital History (C²DH) at the University of Luxemburg

eLaterna provides a major basis to understand the history of the magic lantern, the screen and the art of projection in historical context. Please note the attached flyer.

A workshop on the following day will introduce the main features of *eLaterna Archive* and *eLaterna Companion* to those interested in the production and publication of works in the historical art of projection within the *eLaterna* research platform (see the workshop program on the rear side).

With kind regards

Prof. Dr. Claudine Moulin
(Trier Center of Digital Humanities)

Prof. Dr. Martin Loiperdinger
(Professor emeritus,
Dept of Media Studies)
